DETAILED ACTION

Oath/Declaration

The declaration is acceptable.

Drawings

The drawings are approved.

Specification

The specification has been checked to the extent necessary to determine the presence of all possible minor errors. However, the applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections

Claim Rejections - 35 USC § 112

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Correction or clarification is required.

In claim 1, it is unclear where the "three bit cells", "one bit cell", "two bit cells" and "maximum duration value" come from how the recitation "first circuit" and "second circuit" are read on the preferred embodiment. Insofar as understood, no such circuits can be determined on the drawings. The description of the present invention is incomplete because the first and second

Art Unit: 2816

circuit are not connected to anything. Thus, the claimed apparatus may not perform the recited function. The same is true for claims 4, 6-7 and 9, and for reciting "third circuit" in claim 3.

In claim 2, the recitation "the first and second duration values" lacks antecedent basis.

The remaining claims are dependent from the above claims and therefore also considered indefinite.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4-5, 7, 8 and 9 are rejected under 35 USC 102 (e) a being anticipated by Hikawa et al. (US Pat. 4,617,526).

Figure 1B of Hikawa et al discloses a circuit having a first circuit (46, 47) and a second circuit (48, 50).

Allowable Subject Matter

Claims 2-3 and 6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
